

Program

Representation Theory Days on 07./08. November 2014

Technische Universität Kaiserslautern

Dept. of Mathematics, Building 48

Friday, 07. November	
14:00 - 14:30	Michael Livesey (TU Kaiserslautern) <i>Broué's Perfect Isometry Conjecture Holds for the Double Covers of the Symmetric and Alternating Groups</i>
14:40 - 15:30	Jacques Thévenaz (EPFL Lausanne) <i>Torsion Endo-Trivial Modules</i>
15:30 - 16:00	Coffee Break
16:00 - 16:30	Leo Margolis (Universität Stuttgart) <i>Representation Theory Applied to Torsion Units in Group Rings</i>
16:40 - 17:10	Cosima Aquilino (Universität Bielefeld) <i>The Monoidal Structure of Strict Polynomial Functors</i>
17:20 - 17:50	Ghislain Fourier (Universität Bonn) <i>Marked Poset Polytopes and Degenerations of Flag Varieties</i>
ab 19:00	Joint Dinner in the " Brauhaus " Restaurant, Forellenstr. 6, 67659 Kaiserslautern http://www.das-brauhaus-kl.de/feiern

Saturday, 08. November	
9:00 - 9:50	Ulrich Thiel (Universität Stuttgart) <i>Specialization Theory</i>
10:00 - 10:30	Benjamin Klopsch (Heinrich-Heine Universität Düsseldorf) <i>Zeta Functions Associated to Admissible Representations of Compact p-Adic Lie Groups</i>
10:30 - 11:00	Coffee Break
11:00 - 11:30	Carolina Vallejo (Universitat de València) <i>p-Rational Characters and p-Decomposable Sylow Normalizers</i>
11:40 - 12:10	Thomas Gobet (TU Kaiserslautern) <i>Dual Braid Monoids and Bases of Temperley-Lieb Algebras</i>

Talks: Building 48, Lecture Hall 208 (near the entrance of the building)

Coffee breaks: Building 48, Room 436 (4th floor)
